AUTHORIZATION

SOW Version 1.0

Built by people who built Shopify.

Statement of Work

This Statement of Work ("SOW") is entered into between **KaizenCommerce Inc.** and **[Client Legal Name]**. It formalizes the services, responsibilities, acceptance criteria, investment, and commercial terms for the engagement described in the accepted proposal dated **[Proposal Date]**.

PARTY	LEGAL NAME	PRIMARY CONTACT
Provider	KaizenCommerce Inc.	[Kaizen contact]
Client	[Client Legal Name]	[Client sponsor]

Scope is tied to the accepted proposal.

KaizenCommerce will deliver the services described in this SOW for **[engagement name]**. The work begins when this SOW is executed, the deposit invoice is paid, and required access is provided by the Client.

SCOPE PRINCIPLE

The SOW mirrors the accepted proposal. If the Client requests additional work, additional systems, extra data volume, or timeline acceleration, KaizenCommerce will issue a written Change order before proceeding.

Deliverables include acceptance criteria.

#	DELIVERABLE	ACCEPTANCE CRITERIA
1	Discovery and system audit	Current-state findings documented and reviewed with the Client.
2	Configuration and implementation	Approved Shopify configuration is completed in the target environment.
3	Data preparation and migration support	Mapped data is validated against agreed import criteria and issue logs are resolved or documented.
4	Training and handoff	Training session delivered and working files handed to the Client.

Boundaries prevent delivery drift.

AREA	INCLUDED	EXCLUDED UNLESS ADDED BY CHANGE ORDER
Data	[Included product, customer, order, inventory, and gift card entities]	Additional entities, historical records beyond cap, or unmapped custom data.
Systems	[Named systems in scope]	New third-party systems, ERP rebuilds, or custom middleware not listed here.
Support	[Hypercare window and response expectations]	Ongoing managed support after the hypercare window unless covered by retainer.

The timeline starts after execution and deposit.

MILESTONE	TIMING	PAYMENT TRIGGER
SOW execution	Day 0	50% deposit due, Net 7.
Named mid-project acceptance gate	[Week X]	25% milestone invoice due after Client approval, Net 7.
Go-live or agreed completion gate	[Week Y]	25% final invoice due after confirmation, Net 7.

All amounts are in USD. Blueprint credits, if applicable, must appear as a visible line item on the first implementation invoice.

Both parties approve the scope and terms.
